## The designer

Christian Haack Ketelsen have a strong experimental approach to materials and techniques - which pushes boundaries and creates unique compositions in space.

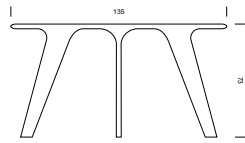

His works are characterized in materiality and expressed in an authentic and minimalist idiom that reflects an intense interplay between geometric and organic forms in the space between figuration and abstraction.

His works feature the element of surprise, unexpected juxtapositions, embedded symbols, associations and personal stories.

CHK is born and raised in Copenhagen, and originates

from the new generation of emerging Danish designers. He has a lifelong experience in design, but consciously made a decision not to pursue the academic route. His mind-set and passion derives from the wish for a more open, alternative and independent approach to his work.

He debuted in 2005 at the international furniture fair in Copenhagen Denmark. In 2008 CHK was selected to exhibit at the international furniture fair in Milan Italy, together with an exclusive group of leading upcoming Danish designers. Since then CHK has been working with a number of prominent Danish furniture companies in relation to his designs.
